# ALL TAKE TO BOATS; RESCUE CRAFT NEAR

Peril 120 Miles East of Virginia Capes.

"S. O. S." CALLS MANY VESSELS OFFERING AID

Number of Passengers Not Yet Known.

NEWPORT NEWS, Va., October 7.-The Ward line steamship Antilla, with an unknown number of passengers and a crew of fortysix, is on fire at sea, 120 miles east of the Virginia capes, according to wireless messages picked up by the operators at Cape Henry and at other stations in this vicinity. Many other steamships and two revenue cutters are rushing to respond to her "S. O. S." calls for help, one of the latest messages from the Antilla stating that "All on board are taking to the boats."

The burning steamship, which sailed from Guantanamo, Cuba, September 30 for New York, is apparently in the center of twenty-six or twenty-seven ships which have taken up the wireless calls and are spreading them broadcast. There is great confusion of wireless, as the drama of the sea is being played out or the lonely waters, but one vessel, whose name was missed by the land station in the confusion, obtained an answer from the Antilla shortly after 9 o'clock tonight when she inquired if there are passengers aboard the Antilla. The reply was a laconic "Yes," giving no details or numbers.

19:96 o'clock p.m., stated that sengers and most of the crew in to the small boats and that eless operator expected to be leave at any minute. In this tit was again urged that ships to the rescue of the Antilla Gleaves, commander of ome at full speed.

> BOSTON, October 7 .- The wellnigh perfect base ball machine of the Boston American League Club triumphed over the Brooklyn Nationals here this afternoon, 6 to 5, in the first game of the world series, but marred its victory by skidding badly in the final inning. For a full eight innings the thirty-odd thousand loyal suporters of the Red Sox sat back with a complacent air of satisfaction upon their features while the junior league champions roamed through their National League rivals to a lead of 6

teen days from Wilhelmshaven, the imperial German submarine U-53 dropped anchor in Newport harbor today.

Almost before the officers of the American fleet of warships through which the stranger had nosed her way had recovered from their astonishment, the undersea fighter had delivered a message for the German ambassador, and, weighing anchor, turned Brenton's reef lightship and disappeared beneath the waves just inside the three-mile limit.

As she came and went she flew the black and white colors of the German navy, a gun was mounted on the forward deck and another aft, while eight torpedoes plainly visible under the forward deck, gave mute assurance that the drop of the hat.
